

SIMPLE ADVICE FOR NEW TRAVELERS

Don't Be Scared.

You may feel scared and nervous but you're just as capable as anyone else. If millions of people can make their way around the world each year, so can you.

Drop Your Guidebook.

Find the latest off-the-beaten-path attractions, bars, or restaurants by connecting with the locals. People are your best resource for up-to-the-minute travel information.

Don't Rush. Travel Slow.

Make time to spend a relaxing day in the park or just sitting in a café people watching. Slow down. It gives you time to drink deep from a culture and take it all in.

Be Adventurous.

Break out of your comfort zone. Challenge yourself. Take risks. Try new things. You may hate some, but you won't regret any of it. You'll walk away more self-confident.

Take a deep breath, relax, and enjoy!
