# OPTOMA HD27E

With compact size, light in weight and superb brightness – the Optoma HD27e makes the ideal projector for gaming and movie nights – at your place or a friends.

## 1 USB POWER – PLUG IN SMART TV

Thanks to the built-in USB power outlet you can also power your source device. Ideal for powering Smart TV dongles, such as the Google Chromecast, the HD27e makes adding Smart TV cheap and easy.

## 2 STUNNING COLOUR ACCURACY

Modelled on the High Definition TV standard, Rec.709, the HD27e delivers the truest possible colour reproduction. With such accurate colour you can enjoy lifelike images from sports, movies and documentaries.

## 3 DYNAMIC BLACK

With Optoma's Dynamic Black system, the HD27e offers an excellent contrast ratio of 25,000:1. By smoothly adjusting the lamp output for each frame, the HD27e is able to offer the darkest blacks alongside the brightest whites.

## 4 24P AND GAMING MODES

To make the most of gaming, this projector features a special Gaming Mode. This optimises the projector's settings to give lightning fast response, maximum contrast and vivid colours, making gaming on the big screen even more involving.
