

TOP 30 TRAVEL TIPS

PART II

1. Charge Up

Charge all electronics 100% before you leave for the airport. You never know if you will have access to an outlet at the airport or in-flight.

2. Print Your Itinerary

Make sure you have your travel information available someplace besides your phone. The thought is cringe-worthy, but your phone could easily get lost or break during travel.

3. Download Triplt

Triplt is a travel management app that builds and tracks your travel itinerary. The paid version (\$49/year) has many other features including flight tracking, gate change notifications, and the ability to find alternative flights.

4. Expense Report App

There are a number of apps that provide expense reports. You take a photo of the receipt and upload it in the app. Forget worrying about losing your receipts! And you can avoid dealing with the dreaded mountain of receipts at the end of the month.

5. Ride Sharing App

Download both Uber and Lyft and create accounts with both before your trip. Some places only have service from one (such as the Orlando MCO airport- Uber only!). If you prefer to take a taxi, or simply want whichever services can arrive the fastest, also download a taxi app such as Curb.
