

MOBILE APPS YOU NEED

FOR YOUR TRIP TO **SEOUL, SOUTH KOREA**

1 KAKAO TALK

"KakaoTalk" is Korea's main messenger app and virtually everybody uses it.

2 MANGO PLATE

Don't know what you want to eat or the restaurants around? "Mango Plate" is the Yelp for Seoul.

3 NAVER MAPS

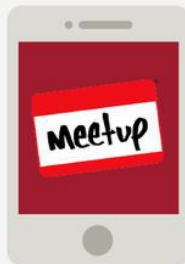

Google Maps is a fine alternative but if you can read Hangul, "Naver Maps" will give you a more accurate location tracking and subway/bus directions.

4 CURRENCY CONVERTER

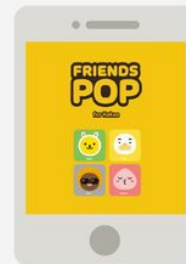

It's definitely handy to know what the exchange rate for the won is and how it compares to the currency back home.

5 MEETUP .COM

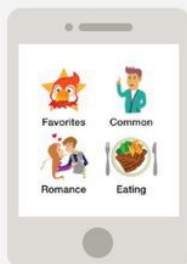

"Meetup.com" has a ton of events with both travelers and locals that'll keep you social in Seoul.

6 FRIENDS POP

The Candy Crush of Korea, "Friends Pop" will keep you awake and entertained during those long subway rides.

7 LEARN KOREAN

"Learn Korean" by Bravolol provides greetings and other necessary phrases as a practical Korean survival guide.

8 SUBWAY KOREA

The subway system in Seoul can get complicated and "Subway Korea" by Malang will tell you when to transfer, where to go and how long the ride will take.

9 KOR-ENG TRANSLATOR

More often than not, you'll run into a word you don't know or a word you wish you knew how to say in Korean. Keep a translator app handy and it'll save you an awkward game of charades.
